The Future is Bright at Our 21st Century Library!

The East Moline Public Library founded in 1915, provides access to materials and programs, promoting lifelong learning within our community, serving over 23,000 residents of the Quad Cities.

The new library will offer many modern upgrades. A state-of-the-art digital plaza and increased access to technology enabling the Library to offer programs in line with contemporary library services.

This renovation will vastly improve the ease of access for the community providing extended-hour meeting rooms and collaborative workspaces. We believe the new facility will truly serve as the community's living room. With over 100,000 visits each year, East Moline Public Library will serve more East Moline residents than any other institution.

The total cost of the New East Moline Public Library campaign is \$7.1 million. Upon completion the Library becomes the cornerstone of the downtown revitalization efforts. We believe pride in our community is the ultimate investment.
