## **SAL Family and Community Services - Partners Together Improving Lives**

High quality care is an economic driver that helps more parents go to work and more children be prepared to be our community's next generation of leaders.

Mission -To strengthen children, families, and individuals to build and enhance thriving communities. Provide Support, Advocacy, and Learning for communities—from childhood to adulthood. Through our five different programs, we connect the community to services ensuring every child can succeed in school and in life, and every adult has access to basic human needs like food, counseling, health services, and housing.

We believe all children can be successful and all adults can thrive when everyone has the right education, support, and resources.

We know early care and education is an economic driver that helps more parents go to work and school and puts more dollars back into the community through higher high school graduation rates, higher income for those children when they become adults, and more stable families.

We know people have the capacity to move out of poverty and weather life's storms when they have a network of peers, family, and friends for support. Thank you for being a supporting community partner!
